SUMMARY

Fourth-year Computer Science student focused on UI/UX design and web development, with project experience in web apps and an offline assistive mobile app. Seeking an internship or entry-level role building useful, user-friendly software.

EDUCATION

Bachelor of Science in Computer Science
Biliran Province State University | Currently in fourth year

PROJECTS

IntelliGuide - Thesis Project
Assistant Team Leader, four-person team | Flutter, Dart, TensorFlow Lite, YOLOv8 Nano, CNN + ViT

- Assistive mobile app that helps visually impaired users detect obstacles in real time using the phone camera.
- Detects 19 trained obstacle classes, estimates distance with a 3 m alert cutoff and reports each obstacle's left or right position.
- Gives voice and vibration feedback, with voice guidance in English, Tagalog and Bisaya.
- Runs fully on the device and works offline, including barangay detection, a navigation map with saved places and on-device location history.

ExploreBIL - Tourism Web App
Python, HTML, CSS, MySQL

- Web app for browsing destinations, discovering local attractions and planning trips in the province of Biliran.
- Includes user login and registration, municipality search, and tourist spot pages with photos and ratings.
- Responsive design for phones, tablets and desktops, backed by Python and a MySQL database.
- Live: explorebil.onrender.com/home | Code: github.com/christineelaineoliverio081-web/EXPLOREBIL

A Letter For You - Interactive Web Page
HTML, CSS, JavaScript

- Mobile-friendly digital letter with a tap-to-open envelope animation, a scrollable message and an embedded music player.

SKILLS

Programming and Web: Java, Python, JavaScript, HTML, CSS, MySQL

Design: UI/UX Design, Wireframing, Prototyping

Quality and Documentation: Software Testing, Debugging, Technical Documentation, Microsoft Word, Excel, PowerPoint

CERTIFICATIONS

- Introduction to AI Literacy and Responsible Use - CHED, Mapua University, September 2026
- Thesis Preparation with Trending Tools and Industry Practices - Biliran Province State University, October 2025
- Unplug and Unwind: Redefining Digital Connection - Biliran Province State University, February 2024
